### Tower Tops Instructions

\*\*Disregard flat rooftops. Roofs come to a point. Couldn't draw that in excel.

Left tower

Right tower

All instructions for both towers are the same except the placement of K, G & L

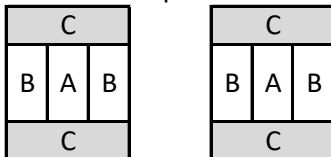

Make two of everything - as shown in pictures

K, G & L's instructions are noted on the appropriate steps

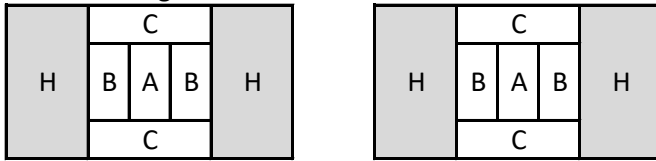

1. Sew two B's to A.

2. Sew two C's to top and bottom of BAB.

3. Sew two H's to right and left of BABCC.

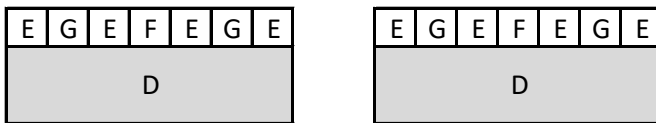

4. Sew two E's to right and left of G.

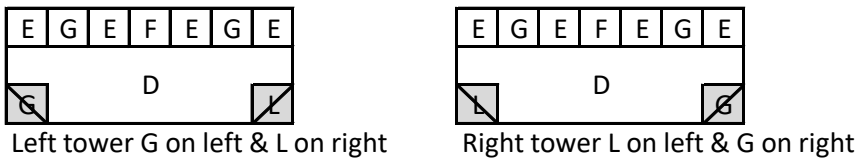

5. Sew two EGE units to the right and left of F.

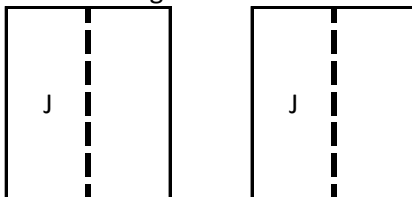

6. Sew D to EGEFEGE unit.

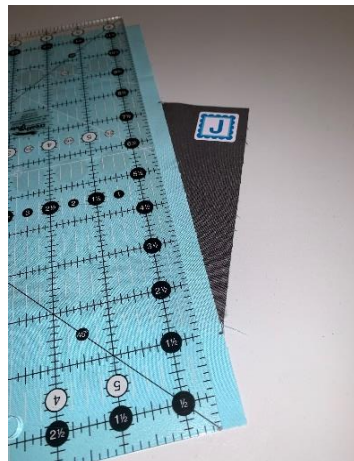

7. Snowball G & L to bottom corners of D.

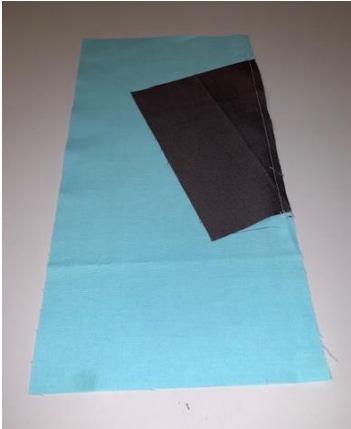

8. Fold J in half longwise.

9. Lay I diagonally from bottom right corner to middle top using fold line to find the middle. Have approximately approximately 1.5" overhang off the bottom.

10. Sew where I & J overlap. Trim excess J.

11. Lay I diagonally from bottom left corner to middle top.  
Have approximately approximately 1.5" overhang off the bottom.

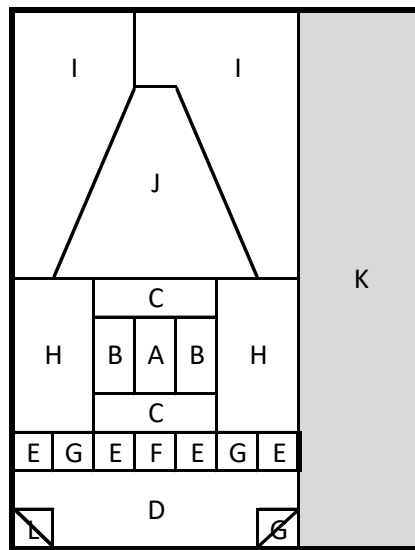

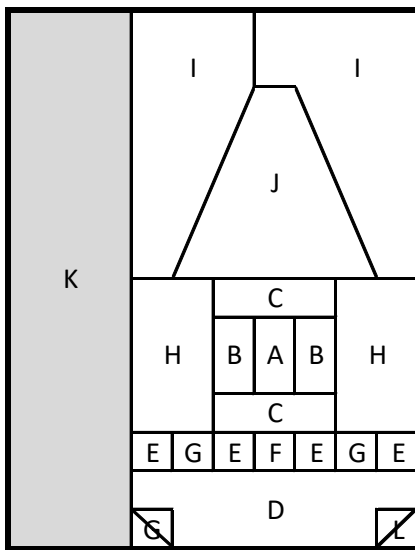

12. Square up the base of the triangle. Figure out middle width, which should be around 2".  
Line that up with the top point of the triangle and trim off all bottom excess fabric.  
Use the base to square up and trim down sides and top. Total width is 7.5".  
From middle fold line will be 3.75" each direction  
I like to leave the top untrimmed until I know that the top middle unit is the size I intended...  
...I try to build in and plan for my imperfection :-)

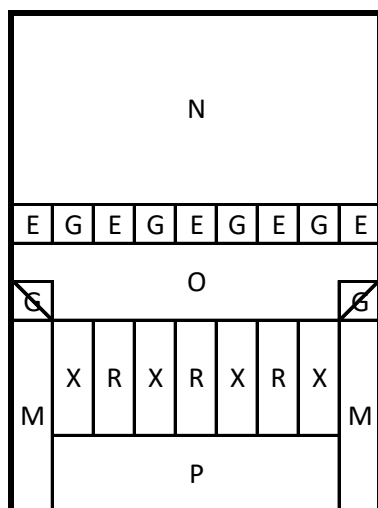

13. Sew roof unit to tower top. Add K to left of left unit and right of right unit.  
 This is what finished tower top units will look like (again disregard flat top on roof)

### Middle Top Instructions

Only one of these units needed.

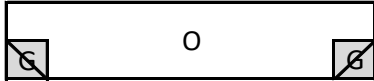

1. Sew four E's to four G's.

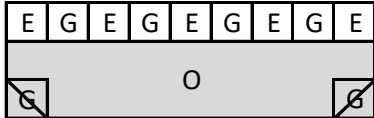

2. Sew four EG's to each other. Add remaining E to the end.

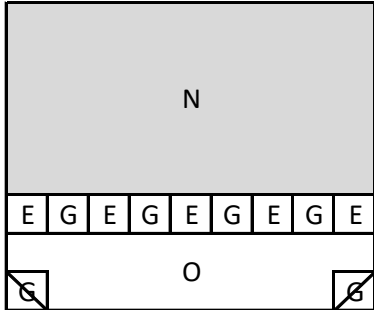

3. Snowball two G's to bottom corners of O.

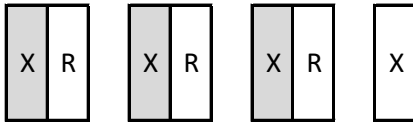

4. Sew GOG to string of EG's.

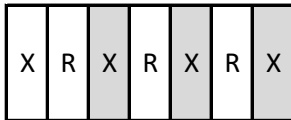

5. Sew N to top off GOGEG subunit.

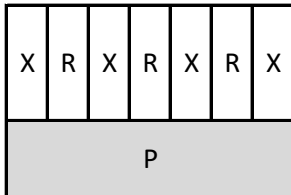

6. Sew three X's to three R's.

7. Sew three XR's to each other and sew last X onto end.

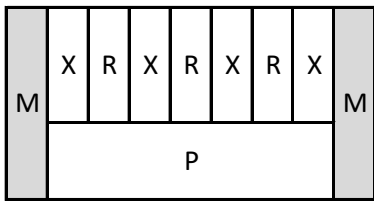

8. Sew P onto bottom of XRXXRX.

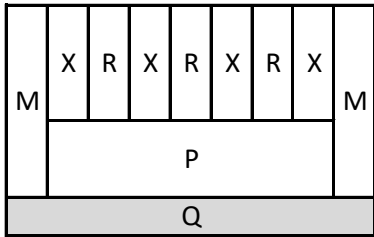

9. Sew two M's onto right and left of PXR subunit.

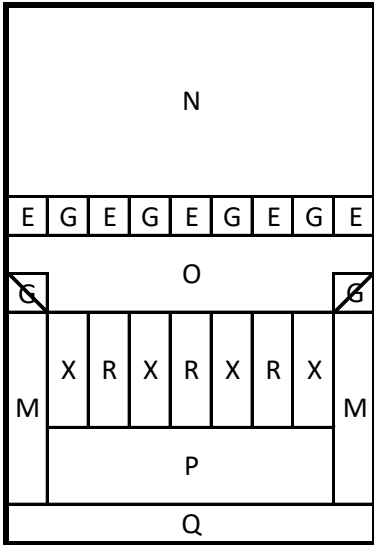

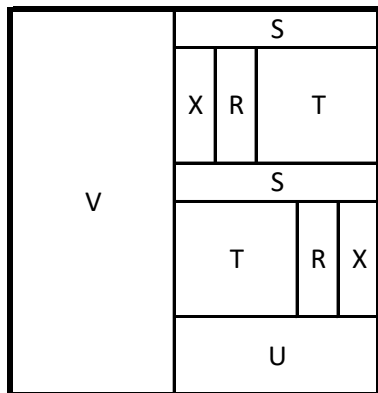

10. Sew Q to the bottom of MMPXR.

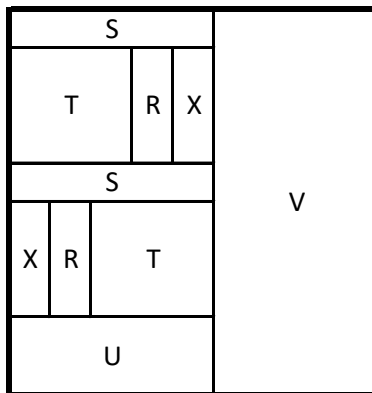

11. Sew GOGEGN subunit to top of MMPXRQ subunit.

### Tower Bottoms Instructions

Left tower bottom

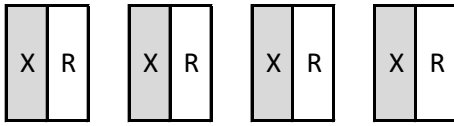

Right tower bottom

All instructions for both towers are the same except the placement of X, R, T & V.

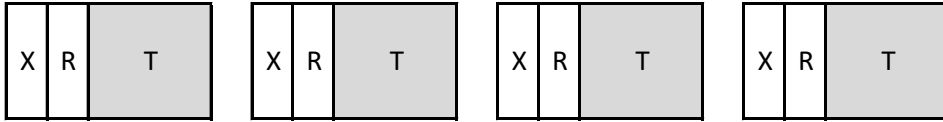

Make two of everything - as shown in pictures

X, R, T & V's instructions are noted on the appropriate steps

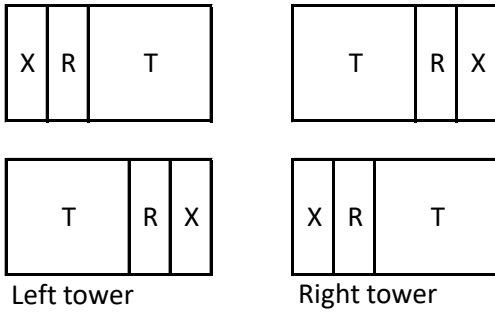

1. Sew four X's to four R's.

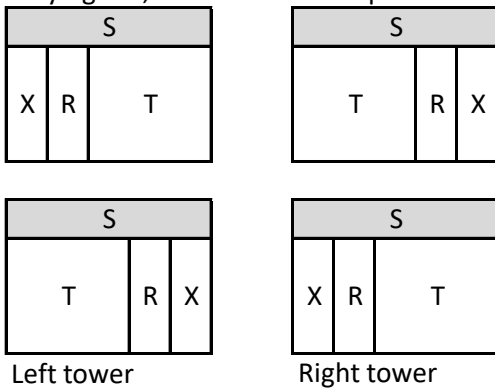

2. Sew four XR's to four T's.

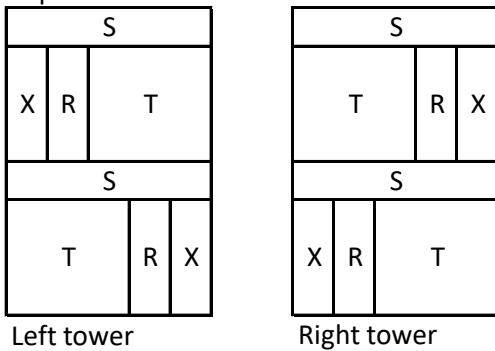

3. Lay out XRT's as follows:

4. After laying out, sew an S to the top of all four XRT subunits

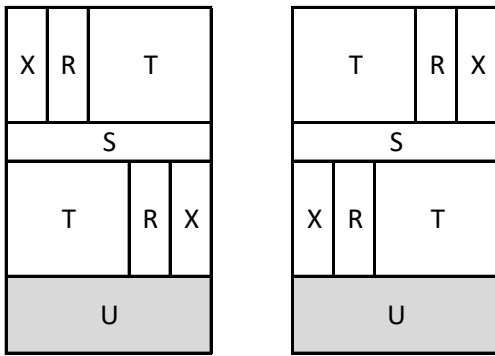

5. Sew top XRTS subunit to bottom XRTS subunit for left and right tower.

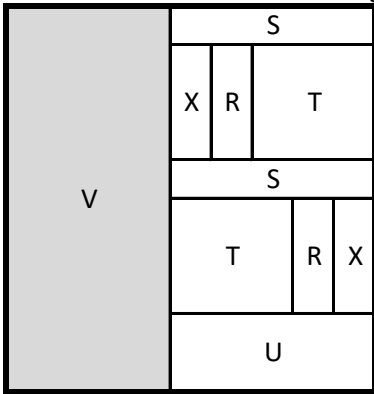

6. Sew U to the bottom of left and right XRTS towers.

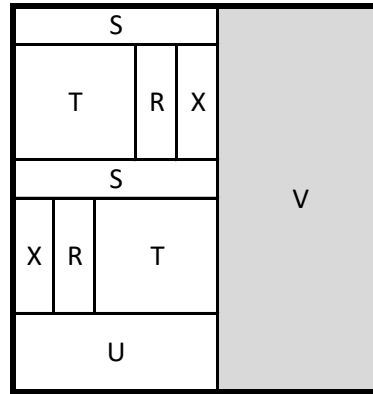

7. Sew V to left of left tower and to right of right tower.

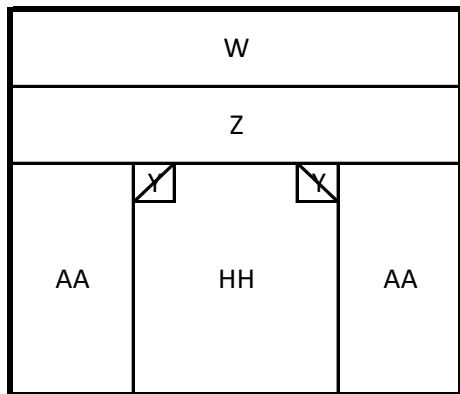

Left tower bottom

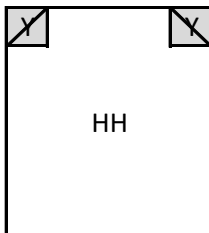

Right tower bottom

### Middle Bottom Instructions

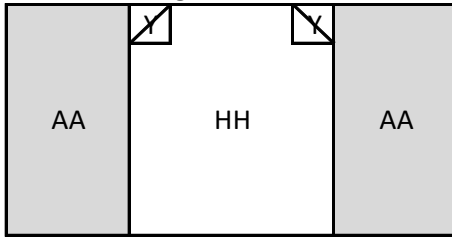

Only one of these units needed.

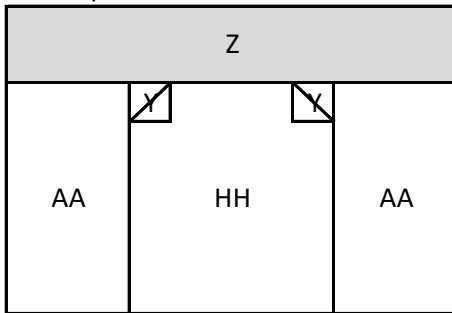

1. Snowball two Y's to upper corners of X.

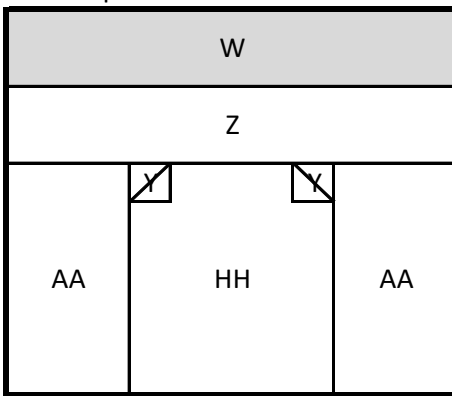

2. Sew two AA's to right and left of XYY.

3. Sew Z to top of AAXYY.

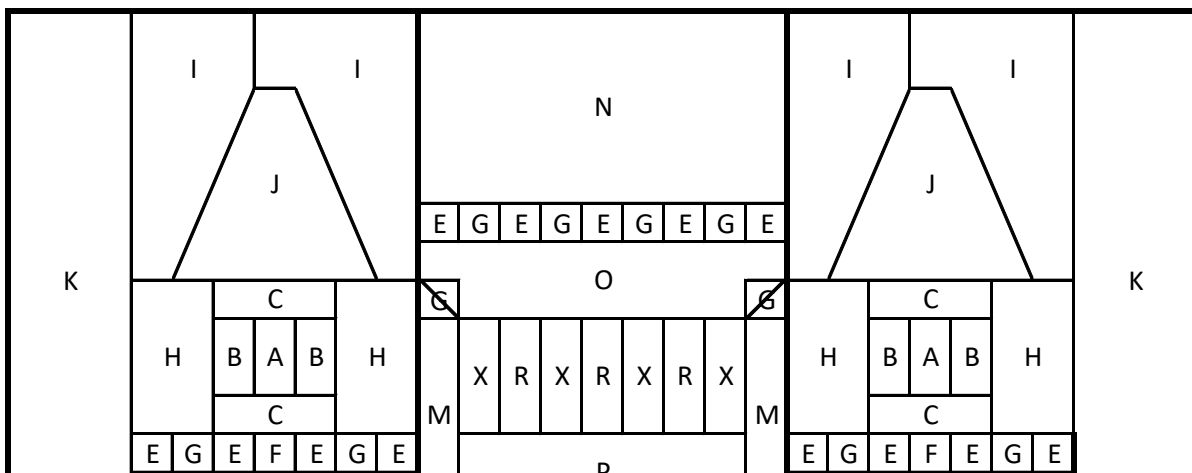

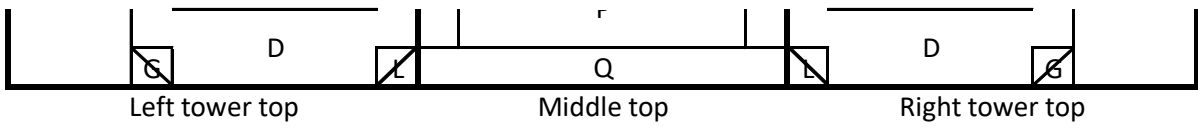

4. Sew W to top of AAXYYZ.

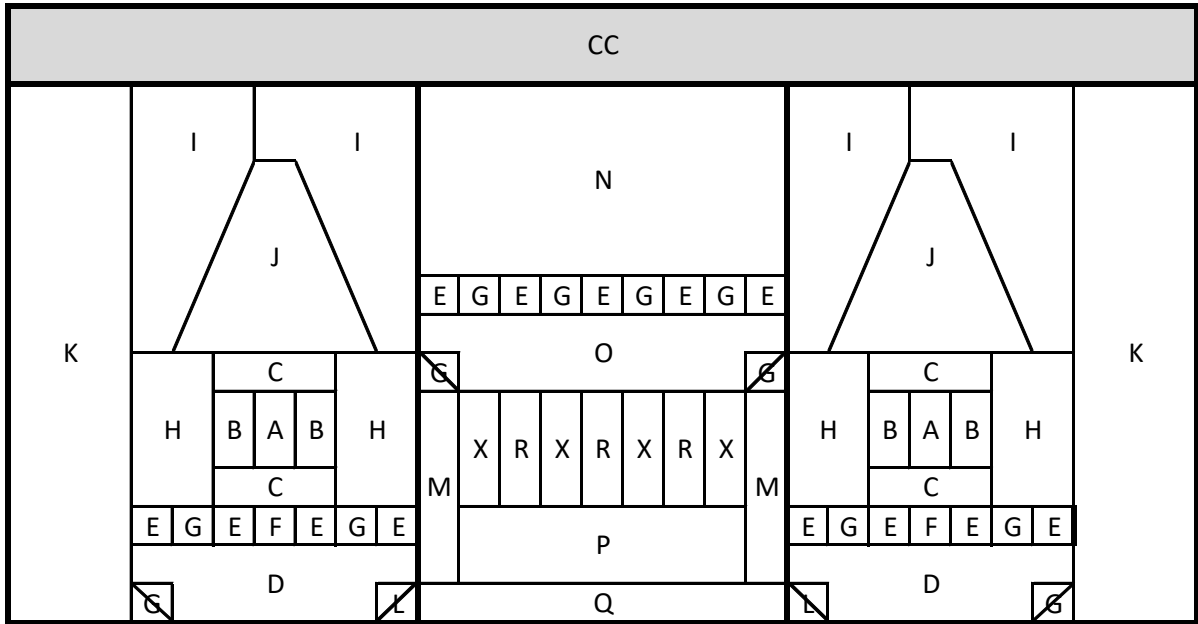

## Finishing Up

1. Sew top row together - left tower top, middle top, right tower top.

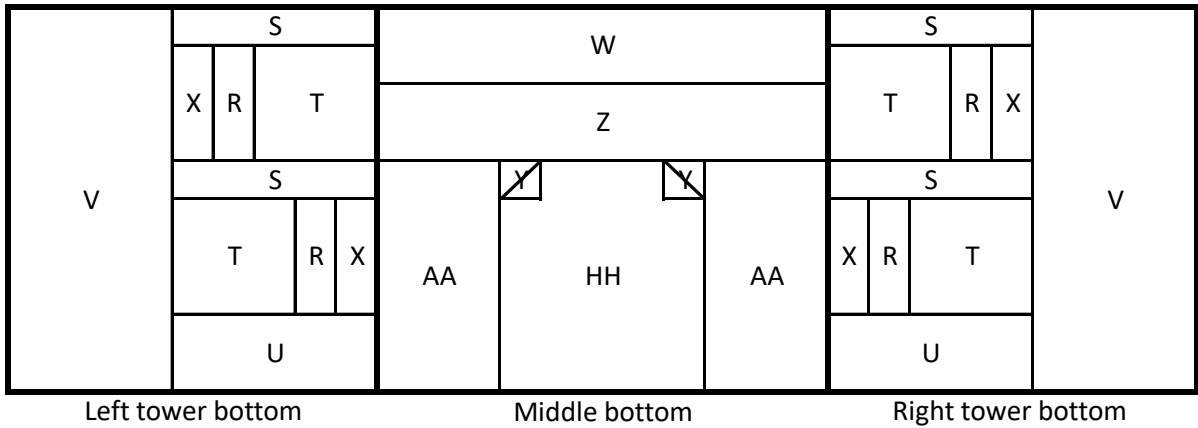

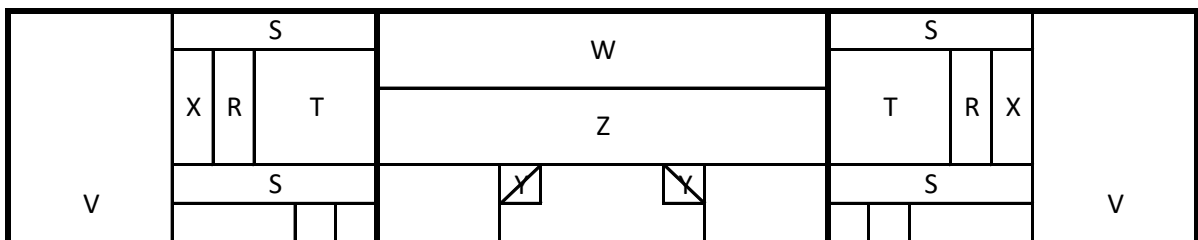

2. Sew CC to top of top row.

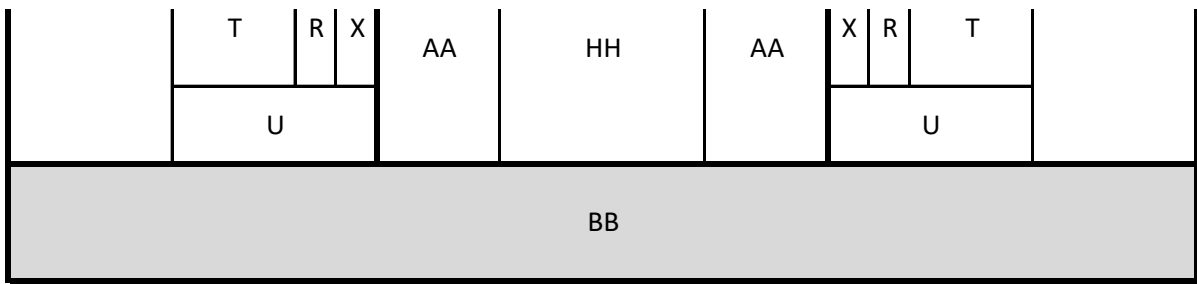

3. Sew bottom row together - left tower bottom, middle bottom, right tower bottom

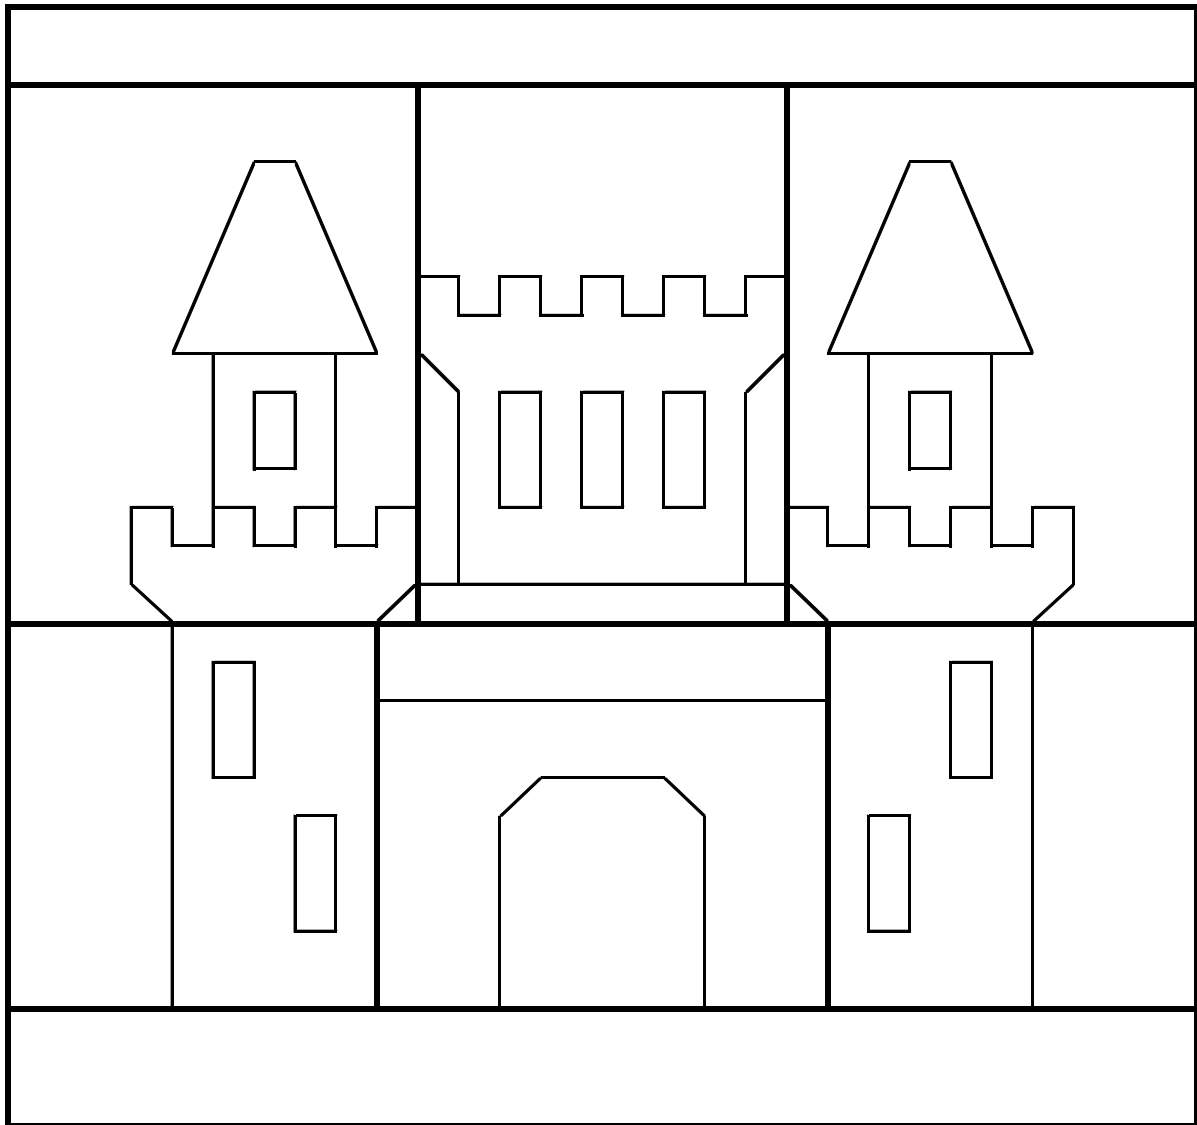

4. Sew BB (grass) to bottom row.

5. Sew top row to bottom row. Finished block size will be 29" x 29".

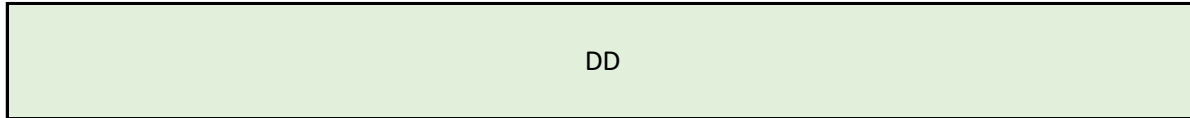

**You have finished the castle! You are wonderful!**

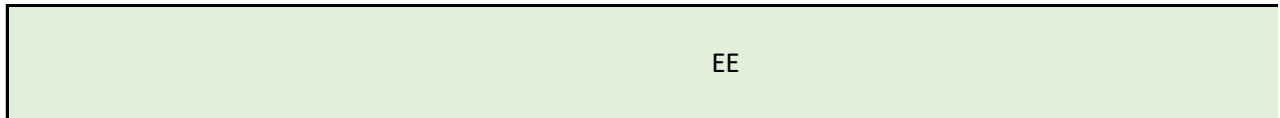

## Borders

If you are up for adding borders, these are the cutting and sewing instructions.  
This will make the finished quilt size 45" x 45".

### Cut List:

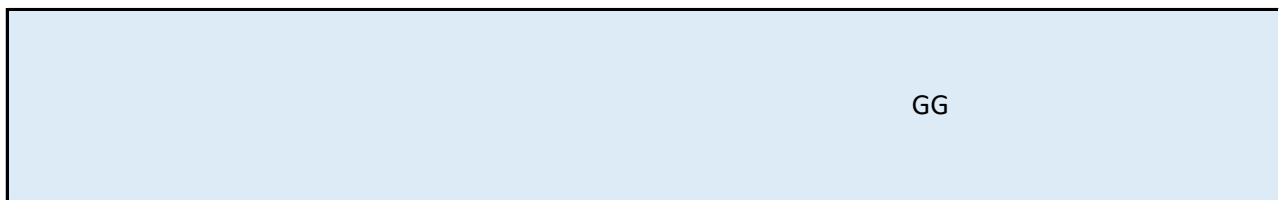

DD) Cut two border DD's 3.5" x 29"

EE) Cut two border EE's 3.5" x 35"

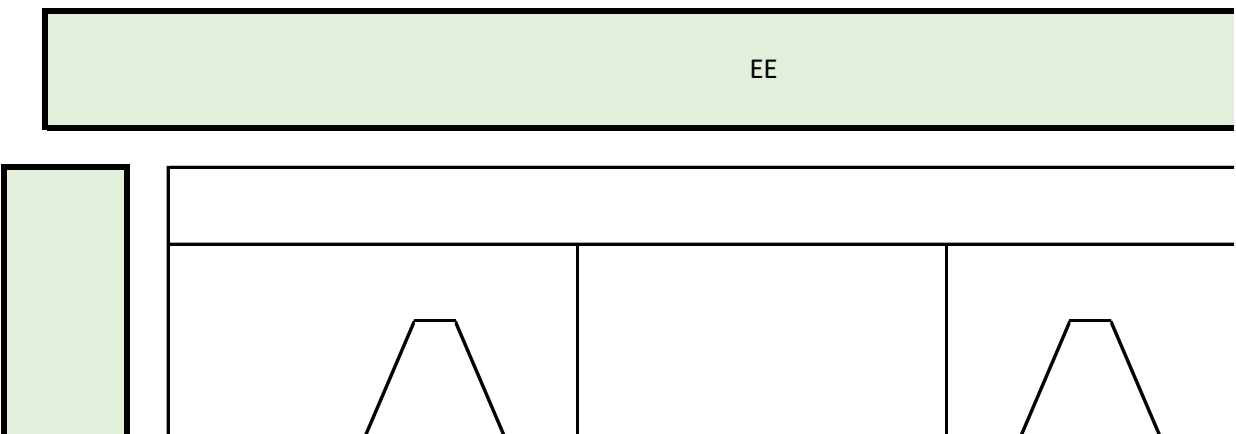

FF) Cut two border FF's 5.5" x 35"

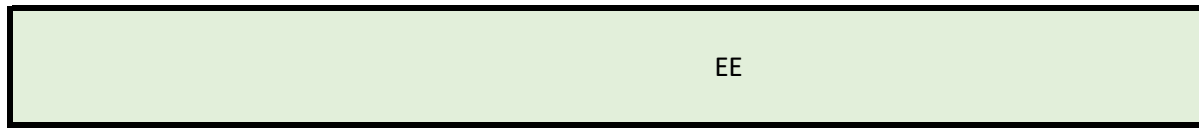

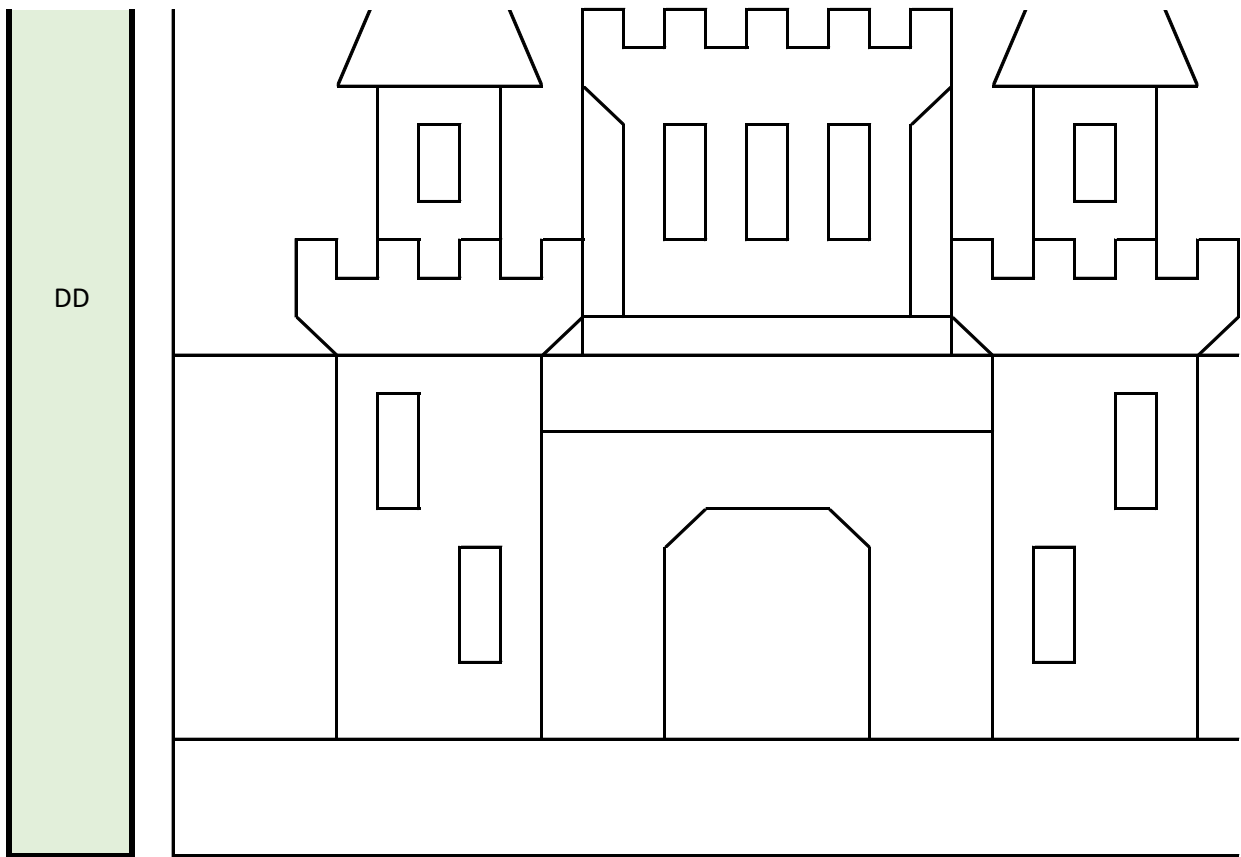

GG) Cut two border GG's 5.5" x 45"

### Inner 3" Border

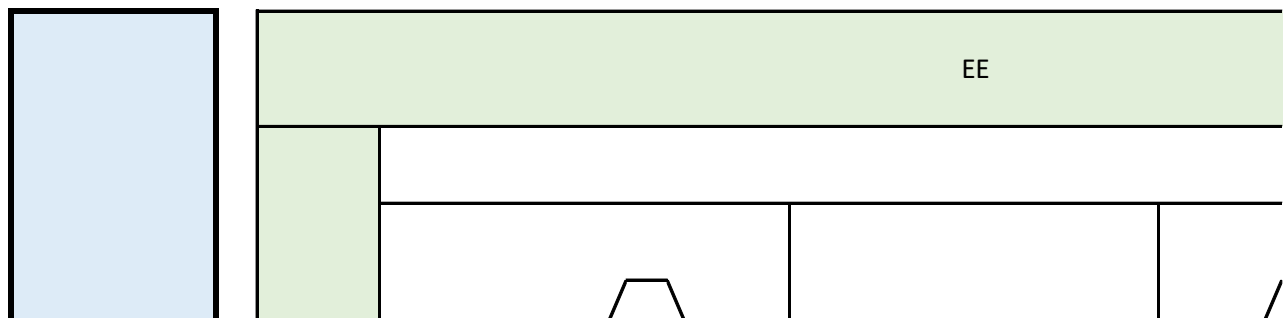

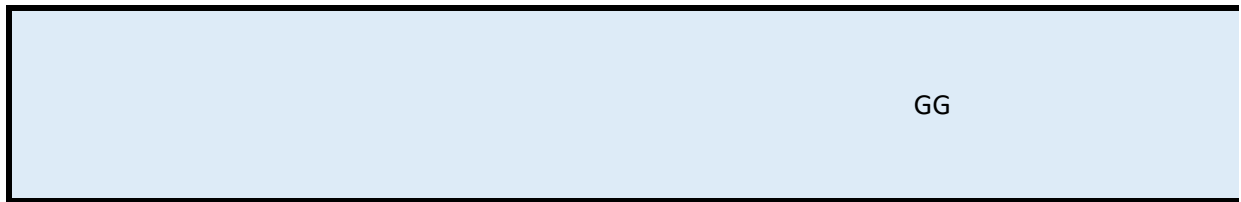

Sew DD to left & right of castle.  
Sew EE to top and bottom of castle.

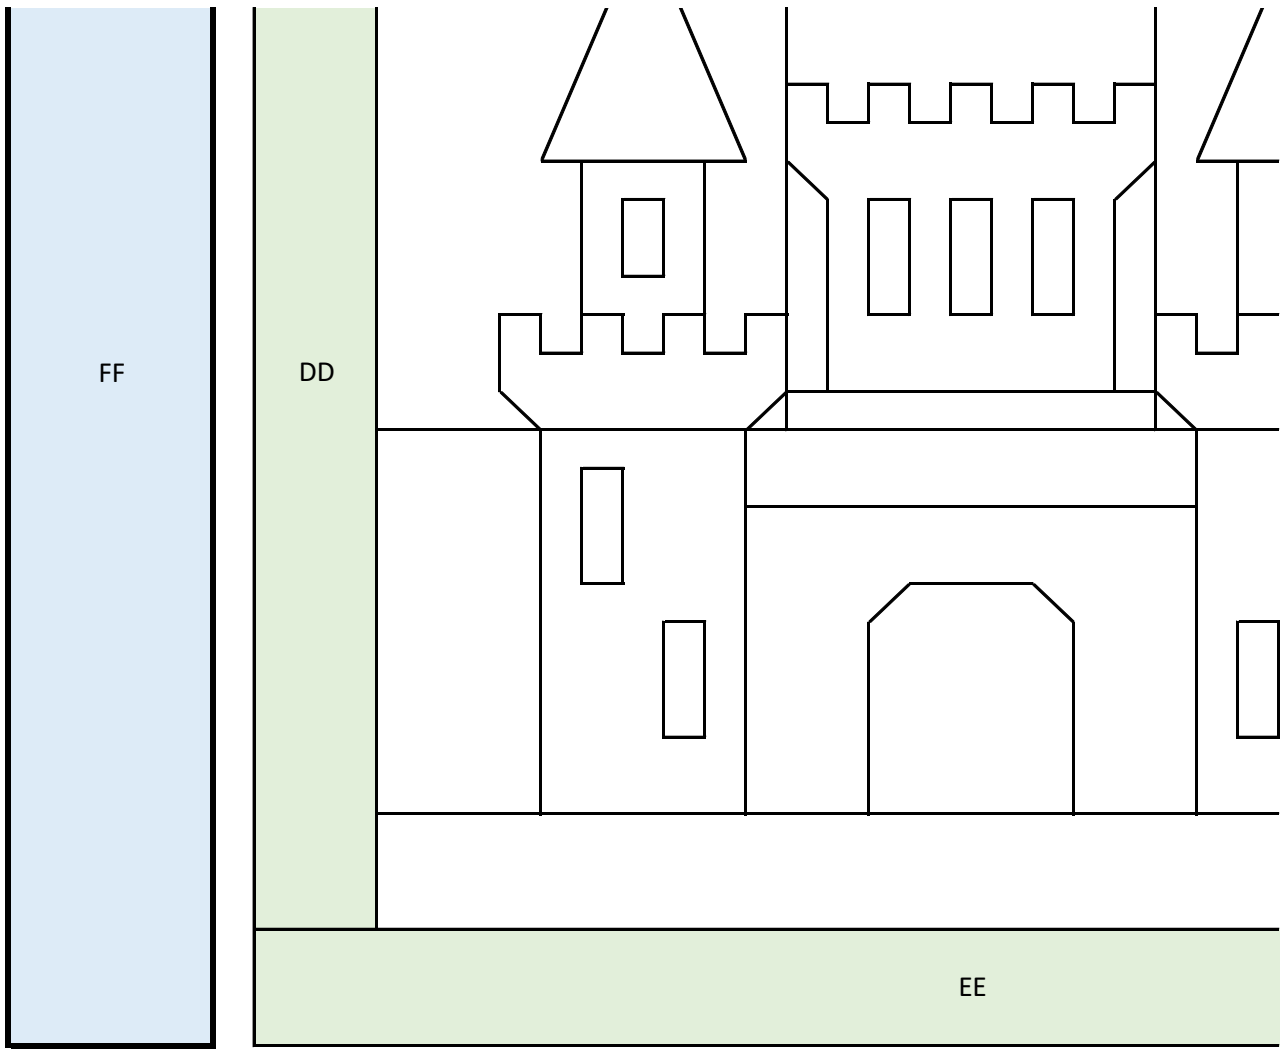

**Outer 5" Border**

Sew FF to left & right of castle.  
 Sew GG to top and bottom of castle.

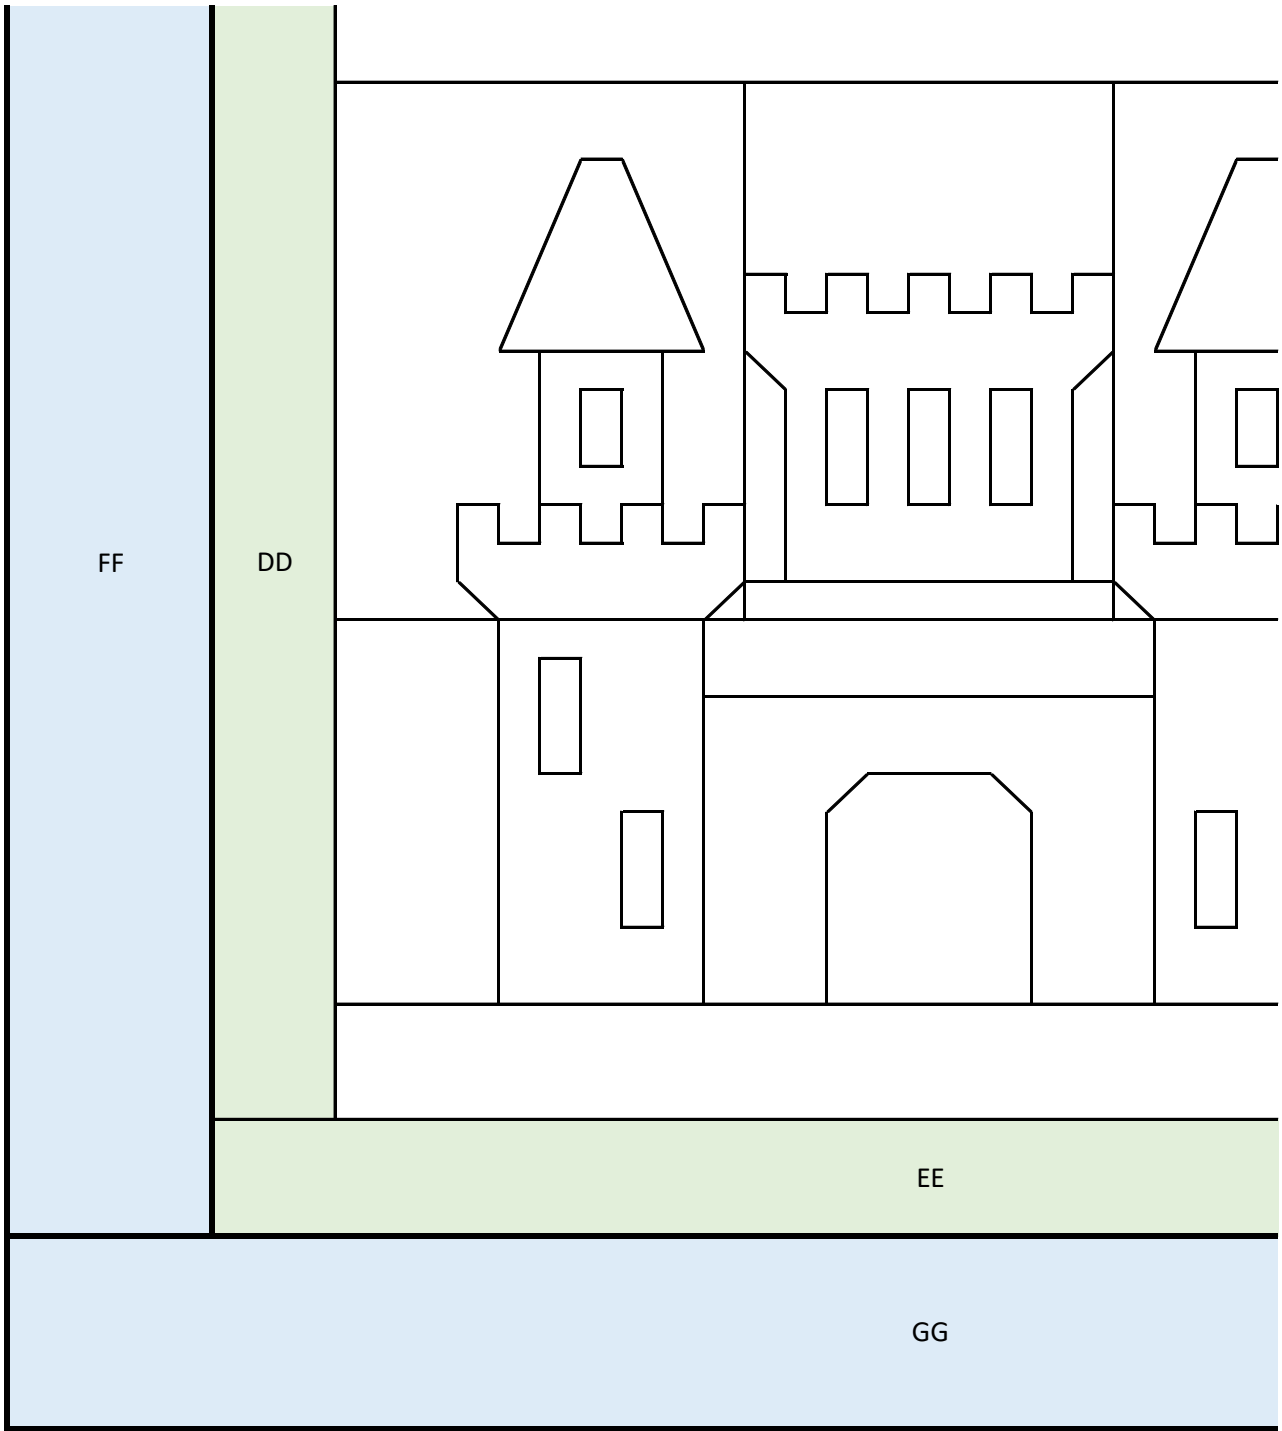

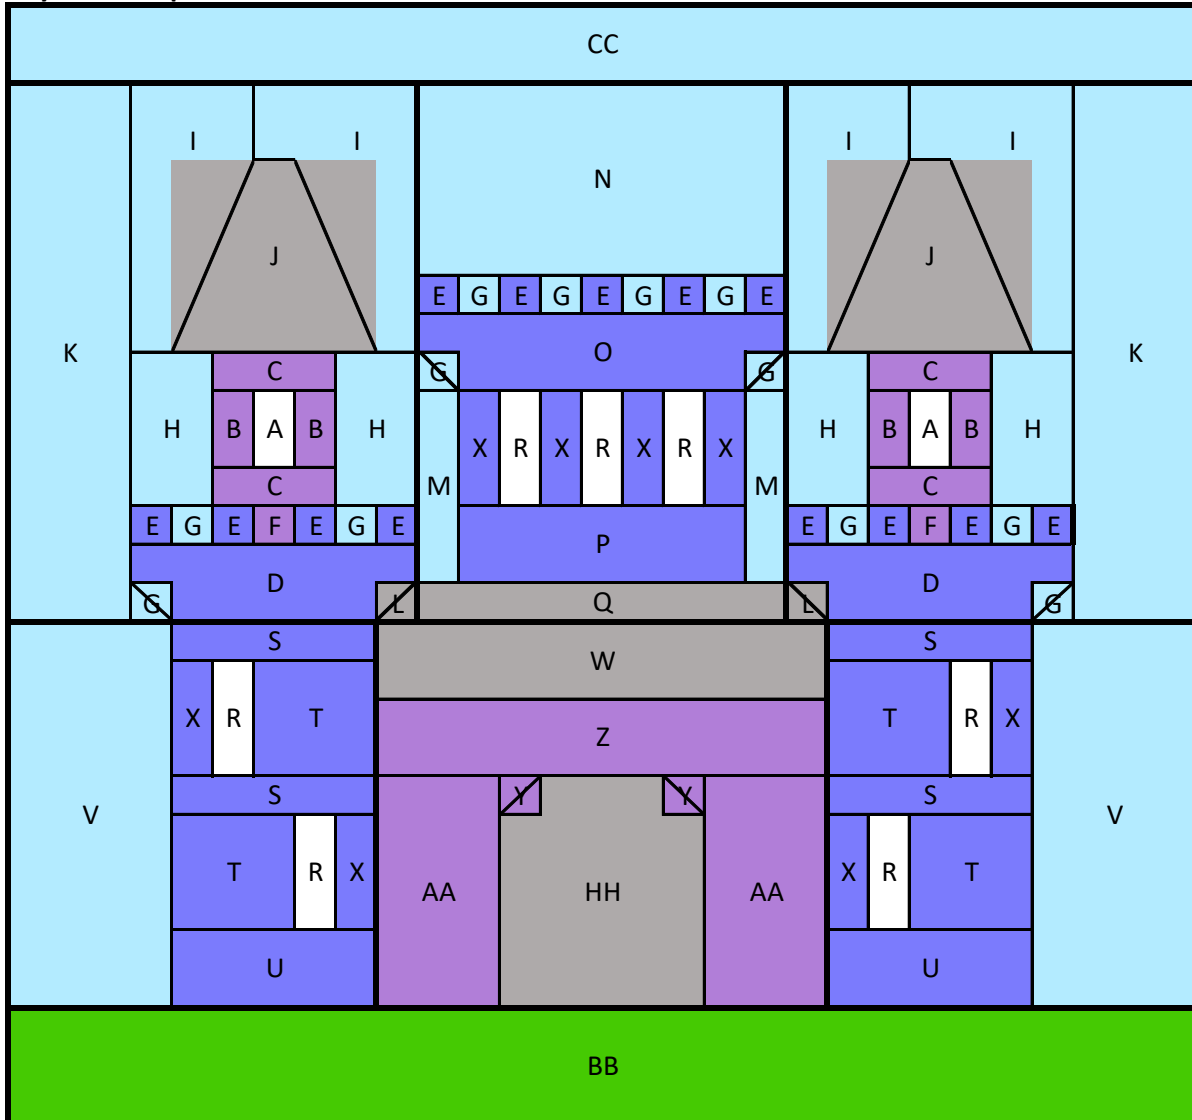

**ALL DONE!**
